

*What a Beautiful Difference
One Single Life Made...*

Lori June Kipp

April 21, 1972 – March 26, 2011

Lori's Favorite Quote...

"To be a star you must shine your own light, follow your own path, and don't worry about the darkness – for that is when stars shine the brightest!"

W

hen tomorrow starts without me,
And I'm not here to see.
If the sun should rise and find your
eyes filled with tears for me.

I know how much you love me,
as much as I love you.
And each time you think of me,
I know you'll miss me, too.

So when tomorrow starts without me,
don't think we're far apart.
For every time you think of me,
I'm right here in your heart.

From Lori and her Family...

"Take Me Out To The Ballgame"

Lori's CF

"Lori became a valued partner, resource and teacher to her pediatric doctors. She had the great gift of calm level-headed optimism and good humor, very fine qualities in a teacher. And she had much to teach health professionals in how best to assist people with CF live out their fullest potential as well as deal as successfully as possible with this horribly ever-present, demanding disease. Her legacy is rich, beautiful, and will live on."

Lori's friendship

"There just isn't enough space here to say how much Lori was a part of my life. I cry, even though she told me she didn't want anyone to boo-hoo over her...well too bad Lori...I'm boo-hooing! I am so thankful to your mother for giving you the advice to ask a new kid to lunch the first day of school of your Jr. and my Sr. year of high school...who would've known that invitation would lead to a relationship closer than sisters."

Lori's love of baseball

"Yes, Mr. Hanks, there IS crying in baseball... from today on. Lori, thank you for brightening our section of AT&T Park. Your smile, your love of the game, your wealth of knowledge of the game, your passion for the Giants, and your appetite for Ballpark Nachos will all be missed but never forgotten. There are angels in the outfield, and one of them is named Lori..."

What a beautiful difference one single life made.

A beautiful soul is never forgotten...

Below and throughout this memorial program are selected tributes received through Facebook, email, cards and letters.

Lori was my first best friend. We met in kindergarten the year my dad was in Monterey at the Language Institute. I have blurred memories of kindergarten, but thirty-three years later, I could still tell you that my best friend's name that year was Lori Kipp."

I hope you know a big chunk of my heart will forever be reserved for my memories of Lori. As a lifelong educator, thousands of students marched through my life - and it is Lori who is at the front of that line."

She was an amazing person and taught me a lot about how you choose to face what life gives you. She taught me to stand up for M in the hospital - to be his advocate. I wish I could have thanked her for teaching M so much. It was Lori in particular who taught him the need to care for himself for the sake of those he loves and who love him."

Kipper, you were SUCH a bright blessing. Always quick with a laugh and a smile, never allowing CF to define you. You taught me so many things, above all else to live life to its fullest, take nothing for granted and seize each and every day with zest and vigor. Your fight and fortitude are and were admirable. You will be eternally missed and are SO very loved, Lori."
